

For Immediate Release

**Honeymoons in the remote
Married life starts with adventure with explora**

For the more adventurous honeymooner, the classic Indian Ocean or African safari itinerary just won't suffice. Newlyweds searching for a new destination, experience or adventure for a honeymoon to remember need look no further with explora's "Honeymoons in the Remote".

Created specially for couples seeking mystery, exploration and an experience out of the ordinary "Honeymoons in the Remote" offers something for everybody with expertly guided explorations in Chile's Atacama, Patagonia or Easter Island.

explora en Atacama

Wedged between the Pacific Ocean and the Cordillera de Los Andes, Atacama is one of the driest deserts in the world. By day couples can carry out a variety of explorations through the desert, scaling volcanoes and visiting the hot springs in the geysers of Tatio; by night, gazing at the beautiful star-lit sky is the perfect romantic end to an action packed day.

explora en Patagonia

Patagonia is located in the southern most tip of South America where newlyweds can take pleasure in the coloured lakes, unusually shaped glaciers and icebergs by boat, horse-back or on foot. The Torres del Paine National Park is considered to be one of the most beautiful places on earth, accentuated by fields of flowers in spring and the plethora of wildlife that thrives in the park's microclimate.

explora en Rapa Nui

Sometimes referred to as the 'Navel of the World', Easter Island is one of the most isolated places on earth. Couples will marvel at the moai sculptures, the giant yellow-grey monoliths which are the only survivors of a dark and bloody tale of a civilisation's rise and fall. This mysterious and magical island is perfect for exploring on foot, bicycle or four-wheel drive, picnicking in hidden caves and volcanic craters.

Following on explora's deeply embedded philosophy, "Honeymoons in the Remote" is about discovering far flung corners of South America, where history and adventure are further enhanced by inscrutable beauty. Expert guides are on hand to tailor make itineraries for couples, whether they opt for walking, riding or seeking comfort in the 4 x 4 explora vans. A honeymoon in the remote will ensure a great start to a new life together.

Notes to editors:

explora is not so much a hotel group as a revolutionary travel experience. It is an enterprise, founded in 1989, to encourage a new attitude towards travel for those who have a passion for discovering new places and new people, in remote and relatively unexplored regions of the southern tip of South America.
