ABOUT EXPLORA

Exploration has been part of human nature since the dawn of time. And it has been a part of us since we started over 25 years ago. Our network of routes in the most remote territories in the world has allowed us to preserve the exceptional natural beauties of the world through exploration. This is why we propose a new type of trip, and we take care of everything: your accommodation, transportation, meals and drinks. And, of course, all the explorations in the most fascinating places in the world.

LODGE

Built amid Incan vestiges and platforms, our lodge is nestled in a beautiful estate in the Sacred Valley of the Incas. The grounds house an old corn plant and the Pumacahua Bath House, a colonial manor house that belonged to Peruvian founding father Mateo Pumacahua and where you will find the lodge's spa. These elements make Explora a unique place in the region.

All our programs include accommodation, transfers from and to the airport at pre-established schedules, meals and drinks, entrance fees to National Parks, except Machu Picchu, and a selection of more than 40 explorations developed by Explora.
