

ABOUT EXPLORA

Exploration has been part of human nature since the beginning of time. And it has been a part of us since we started over 25 years ago. Our network of routes in the most remote territories in the world has allowed us to preserve the exceptional natural beauties of the world through exploration. This is why we propose a new type of trip, and we take care of everything: your accommodation, transportation, meals and drinks. And, of course, all the explorations in the most fascinating places in the world.

LODGE

Located in the oasis of San Pedro de Atacama, Explora Atacama was built on a 17-hectare plot as a base from which to go out to explore the desert, the highlands, and its surroundings.

The lodge has four swimming pools, as well as a sauna, steam baths and outdoor hot tubs for you to enjoy and so you can connect not just with nature, but with yourself.

PROGRAMS

All our programs include accommodation, airport transfers according to pre-established schedules, meals and drinks and a selection of over 40 exploration designed by Explora.

LOCATION

Explora in Atacama is on a 17-hectare property formerly inhabited by a traditional Atacameño family. We have retained the original layout of the land, in addition to the native plant species that grow in the oasis.

TRANSFERS

We provide our travelers transfer services to and from the Calama airport according to pre-established schedules.

*Other transfers subject to each program.

OPTIONAL ALTERNATIVES:

- Connecting rooms.
- Standard room equipped for disabled guests.

GASTRONOMY

In addition, based on the luxury of the essential, we seek to offer pure flavors using top quality ingredients. To get the best out of each product.

Our dishes are always accompanied by a magnificent Chilean wine. We also have a premium wine list for those who want to try other alternatives.

OBSERVATORY

The skies of Atacama are among the clearest in the world and for this reason it one of the best places for astronomy, which is why we inaugurated the Explora observatory a few years ago. Inside a dome, the observatory has a powerful telescope, the Meade 16" f/10 LX200R Advanced RD, with advanced optics and a main mirror 40 cm in diameter with high resolution and sharpness.

When the weather conditions allow, at night we organize guided observations to see the stars.

WHY EXPLORA IN ATACAMA?

1. The sky above San Pedro de Atacama is one of the clearest in the world, ideal for looking at the stars, planets, and all sorts of astronomical phenomena, and at Explora we have the privilege of being able to observe them in detail from our own observatory located in our lands.
2. Enjoy an exclusive pool in the Puritama Hot Springs: Covering 7,500 hectares, the Puritama Nature Reserve is a unique territory in the middle of the desert. It is a place that - unlike the rest of the region - does not stand out for its aridity, but rather for the opposite: the presence of water.
3. At Explora we believe that exploration possibilities are infinite and that is why we are constantly looking for new routes along which to expand our horizons, either on horseback or by bicycle.
4. We are recognized as the best exploration company in the world by the World Travel Awards. We are also certified as a B Company and Carbon Neutral.

CHECK-IN & CHECK-OUT

Check-in 13 hrs Check-out 10 hrs.

*Lunch is not included on the day of check-out.

SERVICES

- Explorations (according to each program)
- WiFi in common areas.

 - Trekking poles.
 - Horseback and biking gear.
- Four open-air swimming pools.
- Spa with hydromassage, sauna and massageroom (massages have an additional cost)
- Shop.

EXPLORATIONS

Our explorations in Atacama are divided into five zones, each with unique geographic, cultural and biodiversity characteristics. Each exploration has been designed to gradually reveal the essence of the territory to be discovered, whether on foot, horseback, bicycle or from the Explora Observatory.

We have more than 40 explorations and our guests have the chance to choose different explorations every day. These explorations have different durations and difficulty levels.
